

ADDENDUM NO. ONE (1)

BASIN CREEK MINE CLOSURE ACTIVITIES 2009 JEFFERSON COUNTY DEQ Contract No. 410003

Addendum Date: June 25, 2009

Bid Date and Time: July 2, 2009 at 2:00 PM

The construction specifications, drawings and bidding documents for the Basin Creek Mine Closure Activity 2009, Jefferson County are hereby modified and superseded by this Addendum.

1. Add the following sentences to the first paragraph of Bid Item 2: Provide Water, page III-7 of Section III: Special Provisions:

Water may be obtained by the Contractor from Sediment Pond SP-2. The Contractor will provide all pumping equipment, piping, or other equipment and all labor required to obtain water from this source.

2. Add the following sentences to Paragraph 309.02, page 309-1 of Subsection 309.00 of Section IV: Technical Specification:

Compost containing less than the minimum 50 percent by weight organic content may be used on this project by applying additional compost at no increase in cost to the Owner to provide the equivalent weight of organic material that would be applied at the specified minimum organic weight content. For example, it would be acceptable to provide compost with an organic content of 40 percent; however, the Contractor would have to provide 250 dry tons of compost, but would only be compensated for 200 dry tons of compost.

3. Replace the Wage Rate Schedule with the attached updated Wage Rate Schedule.

In response to questions received after the Pre-Bid Conference held at the mine site on June 22, 2009 the following clarifications are provided:

1. As stated on page 530-1 of Subsection 530.00 Riprap of Section IV Technical Specifications, riprap shall be obtained off-site unless otherwise indicated on the drawings. The drawings do **NOT** indicate they are available for use on this project.
2. As indicated in the Paragraph 6, page III-3 of the Special Provisions: Contractor shall also provide written documentation that all employees engaged in the Work have received the OSHA 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) Training required under 29 CFR 1910.120.
3. The materials to be handled as part of this work is not known to be hazardous, however, the entire site is located within a Federally designated Superfund Site,

therefore it is possible that any person working at this site may come in contact with hazardous materials.

4. As stated in Article 5 of the Supplemental General Conditions, the Contractor shall purchase and maintain contractor's Pollution Liability insurance for activities required under this Agreement in the minimum amount of \$1,000,000 per occurrence and \$1,000,000 in the aggregate.
5. As stated in Article 5 of the Supplemental General Conditions, the Contractor shall purchase and maintain a separate Owners and Contractor's Protective (OCP) policy.
6. A plan holder's list is attached to this addendum.

DEQ has notified the appropriate party to address the wash-out at the Basin Creek Bridge crossing on Basin Creek road. This structure will be repaired by others before work begins on the project.

Issued by:

Montana Department of Environmental Quality

William A. Bateman Proj. Officer for John Koerth
John Koerth

Mine Waste Cleanup Bureau
